OVERVIEW

This course is open to all abilities. Teaching and support will be tailored to each individual's capabilities to create a unique oil painting.

In this one day workshop you will learn how to use oil painting in a very dynamic and personal way to express your feelings and ideas on the canvas. From scratch to the final piece you will experience the plasticity and depth of oil colours and discover the free application of expressionist painting with its intense colours and generous textures.

All materials are provided and you will take home your final piece on stretched cotton canvas which, once dry, will be ready to display!
